

Quality, Environment, Health & Safety Policy

Orac is a European manufacturer of high quality plastic products. We are committed to **minimize the impact** our operations have on the environment, while creating a **working climate** where quality, health and safety is of paramount importance. The following policy will ensure our ongoing commitment.

QUALITY

Orac insists on the **highest quality standards**. The management and staff focus on customer satisfaction and providing the best **quality products** and **services**. Therefore, we are committed to:

- **Improving** our product quality and processes **continuously**. This systematic approach will lead to a better overall service and a higher customer satisfaction.
- **Implementing** this policy at **all levels** of the organization and in every (sub-) process carried out.

HEALTH, SAFETY & ENVIRONMENT

Orac operates in an **environmentally responsible way** and in **compliance** with all relevant environmental legislation. We defined objectives and targets in order to minimize the environmental impact of our installations, activities and services. Orac is committed to:

- **Reducing** any kind of **waste** and to increasing **rework**, re-use and recycling of internal waste.
- Reduction of the **energy consumption**
- Monitoring and managing all **environmental risks**.
- Avoiding the consumption and **emission of solvent-based** or other **hazardous products**.
- Raising environmental **awareness** among employees.

Accident prevention is one of Orac's top priorities. The company sets its targets to achieve **zero accidents**. Orac manages its safety responsibilities by:

- **Reducing the risks** continuously in all processes and in every operation.
- Providing regular information about the **safety figures**.
- Creating **communication platforms** in order to evoke sufficient interaction.
